

# Brain tumour - Early diagnosis course

## Overview

This course aims to assist primary care staff in effectively assessing and managing patients with a potential brain tumour diagnosis. You will be presented with interactive video consultations based on three patients with differing symptoms. These are accompanied by a range of activities to reinforce key learning points.

### This course will support you to:

- Recognise and explore the different ways in which brain tumours can present
- Make confident headache assessments
- Consider the concept of "headache plus"
- Confidently assess the need for referral in accordance with NICE NG12 guidelines

## Specialist interviews

- Dr. Rajiv Mohanraj, Consultant Neurologist, discussing the difference in headache characteristics
- Dr. Catherine McBain, Consultant Neuro-Oncologist, discussing typical indicators of deteriorating neurological function

## Who is it for?

Primary care professionals across NHS England including GPs and Practice Nurses

**2 CPD hours available**

Royal College of General Practitioners

## Feedback

"This course contains useful information on the relevance of red flag symptoms with regards to brain tumours and migraines." - GP user

"Well presented and easy to follow." - GP user
